Company Profile

"Solitaire" as the name suggests that being supreme in diamonds. The Name was given to the company with a vision in which the company is beholding the fabric of the 'Solitaire Diamond' and imbibed in it. Solitaire Infosys Inc. is an entrepreneurial and leading IT organization aiming to encompass global IT services reaching and delivering the best to our clients all over the world. Started off as a vision five years ago with a team of IT professionals striving to achieve a farfetched dream, Solitaire Infosys is now a thriving family of over 150 employees currently competing neck-to-neck in the world of technology. Solitaire Infosys Inc. is a leading ISO 9001:2008 certified company delivering cutting-edge and seamless solutions to organizations in India and all around the world in major global locations including North America, Europe, Canada and across United Kingdom.

At Solitaire Infosys Inc. we generate the possibilities for our clients to grow by enhancing their business models through customized strategies and solutions that bring digital transformation for advanced results in their respective markets. Our skilled and innovative professionals provide tailored and streamlined services to accelerate revenue growth and reinvent the basic business functionalities.

We believe in providing safe, fun and professional work environment and also focusing on building good relationships with the industry and other partners. With all the Blue Sky Thinking and Raft of Measures we aim to be more assiduous, zealous, and value-based global IT service providers.

Our Objective

“

We aim to push our limits and accomplish beyond the definition of success and at the same time redefining excellence with every step and endeavor we undertake. We never boil anything in the ocean and believe in building capacity by connecting the dots. We believe in the power of a bond that we build with our clients and the power of people that are connected by the wonders of technology. We are driven by our beliefs and principles that have helped us touch and impact lives of the people working with us and the people we proudly serve. We are pushing the envelope by working on the principle of 'Land and Expand'. Our objective is to bring together

people with diverse opinions and point of views to new possibilities and opportunities by turning the potential of technology into evocative solutions by providing highly motivated, capable and invested manpower. We build relations with our clients on both professional and personal level by providing the services in a sophisticated manner.

”

Business Branding Services

A website not only represents your business on the digital front but also operates as a facet for your business to draw clients with a design and interface that speaks of your take on technology. We are certain to make your business visible and acknowledged on the web through our efforts and expertise in Web development technologies which include PHP Development CMS Development, .Net and E-commerce Development.

Business Mobility

With almost the whole world operating now through Smart phones and mobile applications, if you believe Mobile application is the next step to bring your business to your targeted customers then we can turn your beliefs into reality. Being an innovation driven family of bright minds, we seek and deliver reliable and out of the box ideas for robust and new age mobile applications.

Business Strategy & Architecture Consulting

When your business goes digital and online then the need to market it and sell services and products online is a major concern which requires unique and cost effective solutions. Our Digital Marketing services assure an amplified and unparalleled success rate for your business online using the most creative ideologies and technologies to present business in Digital Media Ecosystems.

Modification & Assest Integrity Services

We not only build and develop but we assure sustainability of your systems. We leverage our clients to enjoy a solo maintenance account to avoid the frustration and hassle of handling costly and nerve wrecking crash downs and problems.

Interactive Game Action

Solitaire Infosys provides game content creation services across various platforms and genres. The Art team offers high quality game content creation services ranging from concept art, asset creation to in-game integration for multiple platforms. The Game team consists of seasoned designers, developers and artists, who create original IPs as well as new concepts for existing IPs with high production value games for iOS, Android, Windows mobile and Unity 3D platforms.

Corporate Training

Solitaire Infosys Inc. offers the best corporate training as per the requisites of the burgeoning industry with the most fulfilling training modules. To bridge the competency gap towards building a skilled and productive workforce to meet the challenges of global business competitions by corporate, Solitaire Infosys focuses on productivity enhancement training. We provide the best integrated learning environment which helps to promote growth of every individual alike by programs, which is important for all our professionals and provide employees with the basic foundational skills they need.

Industrial Training

Industrial training plays an important role in a student's life after the degree or diploma as it gives a chance to the students to learn new technologies rather than just relying on the textbooks. We help you to enhance and enlarge the scope of your skills in all current industrial technologies, providing you an edge over the competition. We offer an augmented learning experience with the best facilities and faculty available at every step.

Clients Say About Us

Diana Brown

USA

Had a great experience with this company, great work was done. When I showed it to my team they were very impressed! Thank you!

Christian Noah

Canada

They are great persons to deal with and took the time to guide me throughout the whole process. cannot go wrong with these guys. Highly recommend.

Albert Colon

Australia

It was a pleasure working with this company. They are very professional, communicated well and adhered to deadlines. The staff was extremely helpful.

Marsol

United Kingdom

They helped me create a fantastic platform with a complex device responsive calculator, I am very happy with the work.

Board of Directors

JOGWINDER SINGH

DIRECTOR

Jogvinder Singh, the director of Solitaire Infosys. Inc is really proving to be an epitome of achieving a dream by doing an abysmal amount of hard work. He didn't stop for a moment and did take his life as it comes. He was associated with HCL for 12 years. He whipped into shape by doing his Bachelor's Degree, in Engineering from University of Pune and then with a vision of creating this company, he did his Masters in Business Administration from Delhi University

RAJESH SHARMA

DIRECTOR

Rajesh Sharma, director of Solitaire Infosys is a visionary and no one would have any doubts about it if they glance through his stint in Solitaire. He is nurturing this company from past 6 years after monumentalizing 25 years in the industry where he gained Experience. He envisaged a powerful vision. As a self-actualized person, he set to develop deep social interest and compassion.

Campus Edge

Solitaire Infosys Inc. is a proud creator of Campus Edge, essential software to aid major organizations for various ERP services, which allows the applications to manage the business and mechanize various back office functions which are directly related to technology, services and human resources. It reduces the gap between information and the users which ensures the seamless flow of information. The advantages of this prestigious product are reduced paperwork, easy management of data & processes, reduced redundancy of data.

The Twitt

TheTwitt is our brand of News and information portal on the latest budding technology- Virtual Reality providing insights on latest gadgets and its development so far. The Twitt keeps a track of this brimming technology as which are the river banks it is touching while taking its course over the time. In this portal we try to capture the essence of the latest technology i.e. Virtual Reality and augmented reality in which track the growth of these technologies so as to see them growing towards the revolutionary future.

Solitaire Infosys has been established recently in 2011 with a vision and strong aspiration of becoming a best IT service provider and is already leading the race with its competitors.
